Objective

To secure a Front-end Web Developer position where I can utilize my technical skills and creativity to build websites that make a difference in people's lives.

Personal Statement:

I am a creative and dedicated front-end web developer with a passion for building and designing websites that deliver a positive user experience. With my combination of technical skills and eye for design, I bring a unique perspective to every project I work on. I am eager to join a dynamic and forward-thinking organization where I can continue to grow and challenge myself as a developer.

Skills

- Strong knowledge of HTML, CSS, JavaScript, React, SCSS, Git, PHP, MySQL, and WordPress
- Expertise in creating visually stunning and user-friendly websites
- Ability to integrate front-end and back-end systems to improve user experience
- Eye for design and attention to detail
- Constantly seeking new challenges and opportunities to improve skills

Work Experience

Jul. 2021 - Nov. 2021

Internship as Web Developer, at Solar Equipment Development Unit (UDES).
- **Crafted a custom-made** website with a visually appealing design and efficient user experience.
- **Improved** the speed and organization of the data entry process by integrating with the backend system.
- Delivered a significantly improved user experience for managing searchers' **patents** and **articles**.

Career Goals

- To continue learning and growing as a web developer, keeping up-to-date with new technologies and trends in the industry
- To build innovative websites that make a direct and positive impact on society
- To build a successful career in web development
